Tuesday 25th July 2017

Dear Parent/Guardian/Carer,

I write to inform you that a student in our school is currently receiving treatment which results in a lowered immune system, which means, the student is more prone to getting ill from infections. As the student is not contagious but a chronic illness, it is important he/she participates actively in the day to day school program without any major limitations. A major concern is that if this student develops measles, chickenpox, whooping cough or influenza, he/she could become seriously ill. I seek your cooperation in preventing this situation.

If your child has or may have measles or chickenpox, I would ask that you please:

1. Do not send them to school.
2. Notify the School Principal as soon as possible.
3. Take them to your GP or medical centre to confirm diagnosis if possible.

Thanking you in anticipation.

Yours sincerely,

Marina Hardy
Principal
