

2020 KINDERGARTEN ENROLMENTS ENROLLING NOW

Holy Cross is currently accepting enrolments for students starting school in 2020. We would like to organise Kindergarten Enrolment Interviews over the coming weeks.

If you would like to enrol your child into Holy Cross in 2020, please collect an Expression of Interest form from the office or [click here](#) to download our Enrolment form from our website and return to school as soon as possible. Please inform family and friends if they have children who are eligible to attend.

The administration staff will then be in contact with you to arrange an interview.

You are invited to a Student Led Conference

Next week we will be conducting our first Student Led Conferences for 2019. These conferences are an opportunity for the students to share their learning and achievements with you, their families.

"Student-led conferences involve the student and the parents. The students are responsible for leading the conference, and also take responsibility for their learning by sharing the process with their parents"

During the Student Led Conferences all of our students will take the time to share their learning, discuss their goals, reflect on their achievements so far this year and receive feedback from you. This is a great opportunity for the students to self reflect on their learning and look forward at the goals they would like to achieve throughout the remainder of this year.

We invite parents to attend one of the sessions below. There is no need to book in!

SCHOOL HOLIDAY PROGRAM APRIL 2019

LEGO® Based Therapy: School Holiday Program

Suitable for children aged 8-10 years with social difficulties including those with high functioning to moderate Autism Spectrum Disorder

LEGO® Based Therapy is a small group program that has proven to help children with social difficulties including ASD, to improve and practice their social interaction and communication skills. The program helps children socialise with their peers, have fun in a supportive and understanding environment and enables them to improve the skills of sharing, waiting, turn-taking, talking with others and making friends.

What happens at LEGO® Based Therapy?

- Each child learns a clear set of rules and LEGO® building skills.
- They are then introduced to a group of other children.
- Everyone in the group agrees upon a project which is achievable for everyone involved – projects are usually certain structures or buildings to create.
- Each child is assigned a role for the project.

The roles are as follows:

1. **Architect** - holds the building instructions and is responsible for letting the others know which bricks are required (supplier) and how to put them together (builder).
2. **Supplier** - holds the LEGO® bricks necessary to assemble the LEGO® model and is responsible for supplying the builder with the correct pieces and at the correct time.
3. **Builder** - is responsible for taking the individual pieces from the supplier, and putting the pieces together, according to the instructions given by the architect, to create the model.

Roles are rotated throughout therapy. The group works together to build the LEGO® structure according to the principals of play therapy.

Total program cost: \$617* *(excluding optional feedback session)*

- Program cost \$468 (8 hours)
- \$149 for initial 1 hour interview with child and parent
- *Optional:* individual feedback session \$149 (to be booked at time of registration)
